Summary

.Recently completed my final-year internship (PFE) at EY Tunisia and will obtain my computer engineering diploma in September 2025. Currently a freemover student in computer science at Philipps Universität Marburg, I specialize in Web Technologies with expertise in full-stack development and DevOps. Passionate about new technologies, I honed my pedagogical skills as a programming tutor.

Professional Experience

EY Tunisia February 2025 - July 2025
Intern (Final-Year Project) Ariana,Tunisia

- Developed EY Engage: Employee engagement and event management platform.
- Microservices architecture using **.NET Core** (user/event management) and **NestJS** (internal social network).
- Frontend with **Next.js** + **TailwindCSS** for a responsive interface.
- **SQL Server** database and message handling via **RabbitMQ**. - Secure authentication with **JWT**.
- Containerization with **Docker** and CI/CD via **Jenkins/SonarQube**.
- **Agile/Scrum** methodology (2-week sprints).

IPACT Consult June 2024 - August 2024
Web Development Intern Ariana, Tunisia

 <https://github.com/Hana-Romdhani/Tawasalna-PMS>

- Developed a crisis management web app (Spring, Angular, MongoDB). - Implemented unit tests (Mockito) and CI/CD with Jenkins. - SCRUM methodology.

WICO Information Technologies July 2023-September 2023
Stagiaire-Développeur web Ariana, Tunisia

- Monolithic training management application (PHP, Symfony, MySQL). - SQL query optimization (-30% processing time).

TSB (Tunisian Saudi Bank) August 2021 -September 2021
Intern Ariana, Tunisia

- Automated 60% of social credit processes.

Academic Projects

EYEngage 2024
Event microservices platform (.NET Core, Next.js).

Smart Quiz App 2024
Adaptive quiz with Django & Gemini API

Marketplace de Vente de Voitures 2024
Spring Boot + Angular + JWT.
